PORTABLE BUILDINGS

DELIVERY SPACE REQUIREMENTS

Derksen Portable Buildings provides delivery of the buildings we sell. Delivery will go smoothly when proper arrangements are made in advance.

There **must** be enough space for not only the building, but the truck and the trailer. If the driver determines that there not enough space, arrangements for another location must be made by the customer.

If another trip is necessary to make the delivery, the customer will bear the **entire cost** of the subsequent trip.

Delivery personnel are not responsible for the trimming of trees or the removal of fences or any other obstructions at the delivery site. Please use conservative judgment when considering ditches.

Use this worksheet as a guide to determine whether or not the building will fit.
